

Name: \_\_\_\_\_

Unit 2, Topic 2: Properties of Water  
Foldable Directions

1. Fold a sheet of paper in half (hot-dog style)
2. Staple along the folded edge
3. Write "Properties of Water" along the folded edge
4. Divide the page into eight sections (draw with pencil/ruler)
5. Cut the front page of each section- do NOT cut the back page
6. On the inside, after writing the name of each section, explain and draw a concept for each section

Water Properties

Polarity & Hydrogen Bonds

pH scale

Cohesion

Adhesion

Surface Tension

Capillary Action

High Heat Capacity

Universal Solvent
